BROWNVILLE, via Bradford, leaves Thursday morning at 7, arrives Wednesday from 4 to 5 P. M.

PITTSFIELD, via Corinna, leaves Tuesday morning at 7, arrives Monday from 5 to 6 P. M.

All mails close at 9 P. M. except the Belfast, which closes at 12 P. M.

Office open from 7 A. M. to 9 P. M. Sunday 9 A. M. to 3 P. M.

C. K. MILLER, Post Master.

June 19.

## LORRAINE'S PILLS.

### OR VEGETABLE UNIVERSAL MEDICINE CURATIVE OF THE

#### French College of Health, in Paris.

The following letter was received yesterday by mail from Salem. It gives another evidence of the great success of Lorraine's Vegetable Universal Pills.

SIR—I have been for many years a sufferer from the ravages of Scrofula and Cancerous Humors, which at last seated on the vitals, and exhibited all the threatening symptoms of consumption. The general inability of all remedies awakened my enquiries as to the thousand different methods of cure, to most of which I had recourse without receiving benefit. I accidentally noticed a remarkable cure by Lorraine's Pills, and was induced to give them a trial. I sent to Boston and got a box. By the use of them I found immediate relief and was soon restored to a perfect state of health.

J. E. NEWHALL.

Salem, 21st May, 1841.

The following letter from J. B. Light, Esq. is worthy of notice.

SIR—I took one of Lorraine's Vegetable Pills last evening for a pain in my head, that had effected me for several days, occasioned by taking cold. I soon felt very calm, and quiet, and a state of general repose came on, which had great charms, and I enjoyed one of the most comfortable and refreshing nights rest that I ever did in my life. I rose in the morning in my usual state of health, and believe it is my duty to recommend this medicine.

Yours truly, J. B. LIGHT.

Nov. 20th, 1841.

[From Boston Daily Mail.]

Somebody wisely says, that a cap loaded with jewels and bowers will not cure the headache, nor gold chains prevent the consumption. Lorraine's Vegetable Pills have done both.

SIR—I have been effectually cured of a severe headache by the use of Lorraine's Pills.

SARAH NOYES.

SIR—My daughter had all the threatening symptoms of a Consumption, such as cough, pain in the side, &c., together with general debility, but has had her health restored by Lorraine's Pills.

Rev. J. KNIGHT.

New York City, Nov. 1, 1841.

## Family Medicine.

SIR—I have used Lorraine's Pills in my family as a family medicine, and I would most earnestly recommend them to all persons, as the best medicine that can be procured. I would not be without them—they operate mildly, and never fail to give immediate relief. Until I used these Pills I was obliged to pay from 20m to \$100 per year for medicines and physicians, since then I have had no other doctor than Dr. Lorraine's Pills.

JAMES NEAL.

Hartford, Conn. July 8.

## Lame Back.

Sarah Snow was cured of a lame back in one day, when she had been unable to dress herself alone for two weeks.

Susan Jones of Boston, cured in 36 hours of lame back and side of three weeks standing.

## Sick Headache.

Mrs. Bird of Providence says, that 'Lorraine's Pills have proved a real blessing to her. It has surpassed anything that has been brought to the public notice. I have been cured of a sick headache that afflicted me for years, by the use of Lorraine's Pills.

## THE CONDITION.

The condition upon which nature gives health to man, is a watchful care to keep his stomach and bowels free from morbid and unhealthy accumulations. Lorraine's Pills admirably effect this, because they cleanse the bowels and purify the blood.

The human body is always healthy when the bowels are regular, the blood circulates freely, and disease invariably commences when obstructions take place in the bowels.

The extraordinary virtues of Lorraine's Pills depends upon extracts of over 50 different vegetables, all admirably combined as to purify, nourish and invigorate the human system.

For sale by G. W. HOLDEN, Bangor.

A. B. RIDGWAY, Agent for the New England States, at 27 Cambridge Street, Boston.

## PATENT MILL WHEELS.

THE Subscriber having for a long time given his attention to the construction and operation of Water Wheels, has finally succeeded in the invention of two kinds of Wheels for which he has received Letters Patent from the Government of the United States.

These Wheels are simple in their construction, cheap and durable, are easily put in operation, and are not liable like most other wheels to get out of order, they are not obstructed by back water, when the head is not diminished thereby; and the same power and speed is obtained, with about one half the quantity of water usually applied to wheels now in general use.

A great number of these Wheels are now in operation and give in all cases entire satisfaction; and for further information respecting them the following gentlemen are referred to, all of whom have some of said wheels in operation: Jacob Drummond, James B. Fiske, Amos Davis and Leonard March, Esqrs., Messrs. Fiske & Norcross, Foster & Gilman, S. P. & H. Strickland, W. T. & H. Pearce & Co Bangor; Hon. J. S. Little, Portland; Hon. John Otis, Hallowell; F. A. Butman, Esquire, Dixmont; Robert Treat, Geo. A. Pearce, Esquires, Frankfort; Daniel Dennett, Esq. Milo; Col. Henry Orne, Milton; Messrs. Fiske & Bridge, Milford; Ira Wadleigh, Esq. Oldtown; Capt. R. Fittz, Dedham; John Black and John M. Hale, Esqrs. Ellsworth; Daniel Messrs. A. Campbell & Co. Cherryfield; Daniel Harwood, Esq. Machias; Levi L. Lowell, Calais.

The above wheels are manufactured and for sale at the Iron Foundries of MESSRS. HINCKLEY & EGERY and FRANKLIN MUZZY & Co. in this city, who are furnished with a great variety of patterns, so that Wheels of any particular description, or adapted to any given head of water, can be furnished at short notice. They are also authorized to dispose of the Patent Right for the same.

SAMUEL L. VALENTINE.

Bangor, July 11, 1843—d&wtf

John R. Hall, No. 8 Court Street, Boston.

HENRY GILMAN.

J. W. RICHARDSON.

Bangor Aug. 25, 1843.

## PROSPECTUS OF THE

### MECHANICS' RECORD.

By a vote of the late STATE CONVENTION OF MECHANICS, a Committee was authorized to issue a Prospectus for the publication, in the city of Bangor, of a monthly periodical devoted to the interests of the Mechanics of the State, and to be the organ of communication between the different Associations already formed, and the means of increasing their numbers and extending their influence.

Agreeably to their instructions, the Committee now propose to their brethren, the Mechanics of Maine, the publication of a monthly periodical earnestly devoted to their interests—to all that concerns their social relations, their scientific attainments, and their progress in self-cultivation; a publication heartily engaged in disseminating a correct public sentiment regarding useful labor—in enlarging the boundaries of science, aiding in the improvement of the arts and in spreading useful information upon all subjects connected with education and the arts, as well as an organ of communication between the Mechanic Associations in the State.

It is confidently expected that the matter for each number will be furnished by the earnest thinkers in each of the Association in the State and by men who are deeply interested in the onward progress of humanity, by means of a better and a wider spread intelligence among the people, and a broader extension of physical science and the mechanic arts.

The RECORD will be issued in a pamphlet form of convenient size for binding, upon good paper and a clear type, each number to contain as many pages as the amount of the subscription at the time of its publication will warrant.

TERMS. The RECORD will be furnished to each subscriber for one dollar a year in advance, and no subscriptions will be received without the pay.

Delegates to the State Convention, the officers of the several Mechanic Associations and mechanics generally are requested to aid in procuring subscribers and remitting the money, that the experiment so honorable to them, if successful, and so useful to the community may not fail for the want of this co-operation and influence. It is expected, also, that each Association will take immediate measures to occupy a portion of the RECORD in advancing the cause which the mechanics in this State, for themselves, have so unanimously undertaken.

\* \* The first number will be put to press as soon as notice is received of a sufficient subscription to sustain the publication.

JAMES R. MACOMBER,

ABNER R. HALLOWELL,

OLIVER S. BEALE.

BANGOR, August 23, 1843.

## ASSIGNEE'S SALE.

BY virtue of a Decree of the District Court of the United States for the District of Maine, will be sold at public auction, to the highest bidder, on SATURDAY the 4th day of November next, at ten o'clock A. M., at the auction rooms of Goss & Upham in Bangor, for cash on delivery, the following mentioned property belonging to the Estate of Nathan B. Wiggin, in Bankruptcy, viz:—

All the interest and right said bankrupt has in and to any part of the estate known as his home-stand, on Cumberland street, in Bangor.

One undivided half of a lot of land near Boyd's Eddy so called, in Bangor, on Hancock street, about 200 by 120 feet and a two tenement house thereon.

Right of redemption in one undivided half of lots Nos. 13 and 14 Training Field, on Pearl and State streets, in Bangor.

Lot No. 24, on the corner of Essex and York streets, in Bangor.

Right of redemption in lots Nos. 22 and 23 Broadway Park, west side of Broadway, in Bangor.

Right of redemption in lot No. 2, Franklin Row, City Common, in Bangor.

Lot No. 99, in the town of Orono, containing 140 acres, more or less.

Pew No. 85, in the Union Street Brick Church, in Bangor.

Two shares in the "Granite Church" Corporation in Bangor.

Also, sundry demands, one clock and three pictures.

ALSO, will be sold at Foxcroft, in the County of Piscataquis, on TUESDAY the 31st day of October instant, at 10 o'clock A. M., on the premises, the following mentioned property belonging to the ESTATE OF OREN SHEPLEY IN BANKRUPTCY, viz:—

A lot of land near Hammond's Mills, and Bedstead Factory thereon, with certain privileges of using water and machinery, piling lumber &c. as is more particularly set forth in the warrant deed of John A. Swan to said bankrupt dated the 22d of July 1833, in the possession of the undersigned.

Schedules and the particulars of the property belonging to said estates, to be sold as aforesaid, may be seen and known on application to the undersigned.

The undersigned would also give notice that he is authorized by a decree of said Court to compound debts due the estates of NATHAN B. WIGGIN, OREN SHEPLEY, JOSHUA FELLOWS AND DAVID GURNEY; and all persons indebted to said Estates are requested to call on the Assignee and settle.

Said property will be sold subject to any and all rights of set off, mortgage, liens and liabilities, and to all equities existing between the parties; and in the sale and conveyance, the interest only that the said Bankrupt Estates have in the same will be transferred. The Assignee in no case will be held accountable for costs where his name is used in the collections of debts and claims.

ISAAC S. WHITMAN, Assignee.

Bangor, Oct. 14th, 1843.

## NOTICE.

HANNAH ELIZA CALL intends opening a

School for young Ladies, at the School House on High Street, to commence on the first MONDAY in November. For particulars she invites her friends to call at her Father's House, May St., where, if desired, a few scholars would be accommodated with board.

Bangor, Sept. 30.

## FIGS AND RAISINS.

BOXES, Halves, and Quarters, and fresh Figs by

G. W. LADD.

## LOOKING GLASS & PICTURE FRAME MANUFACTORY.

FAIRBANKS & HOLLAND.

PEARSON'S MILLS, BANGOR.

THE public are informed that we have established a manufactory for making LOOKING GLASS, PORTRAIT AND PICTURE FRAMES of all sizes and varieties. We have set up suitable machinery in all the branches of the business by which much labor is saved and the price of these rich and beautiful articles is greatly reduced, so that a fine article may now take the place of coarse and ill looking ones, and at as low a price.

Large and elegant O G and bevel frames, and small bevel frames with rich mahogany veneer are manufactured in such quantities that we are prepared to answer, at short notice, all orders at

WHOLESALE,

by the hundred or thousand, at prices that cannot but be satisfactory to dealers.

New frames fitted to Portraits, Looking Glasses or Pictures, or new glasses furnished and fitted to old frames.

Dealers supplied with frames either with or without glasses.

N. B. Orders respectfully solicited for single frames or by the dozen; and as this is a new branch of Home Manufacture to any extent, we trust the public will be ready to encourage and support the enterprise.

For the convenience of our city friends, orders for frames of any kind may be left at the Hardware store of DAVID MOSMAN on East Market Place.

Bangor, July 26, 1843—d&wtf

## GRAVESTONES FOUND.

FOUND stowed away in Hammond's Building

in this city a wooden box about four feet long a pair of grave stones. The box is marked "Jabez Knowlton Bangor Me Luther Besset [or Bisset] Matawankeag Me"

The owner can have the same by proving property and paying charges. For further information call at the Whig and Courier Office.

Oct. 14, 1843.

## A. DUNBAR & SON,

AT ALLEN'S EDDY, NEAR THE

ROSE PLACE, BANGOR.

GIVE notice that they have formed a connection in business, have provided themselves with the first quality of lumber, and are prepared to manufacture Window Sashes and Blinds of the first quality at short notice. They have on hand a large lot of ordinary sashes and blinds which they will sell at a low rate.

HOUSE CARPENTRY.

They are ready to execute all orders for House joiner work of any description, in a style satisfactory to any one who may give them a call.

WAGONS.

A. D. & Son are engaged in the manufacture of Wagons, and will be glad to receive orders for the same. They have also on hand several second hand wagons which they will sell at a cheap rate.

FURNITURE.

They are manufacturing Tables and some other kinds of Furniture, and have made arrangements for answering all orders for furniture of any description.

EASY PAY.

To avoid long and ruinous credits, they will receive in payment for manufactured work, Lumber or Country Produce at fair prices.

Customers may be assured that A. D. & Son have made arrangements for having their work done in a faithful and workmanlike manner, of good stock, in good style, at a fair rate and promptly executed.

Bangor, August 21, 1843—Stawd&wly

## MISCELLANEOUS.

From the New York Christian Messenger.

### The Unexpected Friend.

"It must be, my child; said the poor widow, wiping away the tears which slowly trickled down her cheeks. 'There is no other resource. I am too sick to work, and you cannot, surely, see me and your little brother starve. Try and beg a few shillings, and perhaps by the time that is gone, I may be better. G. Henry, my dear; I grieve to send you on such an errand, but it must be done.'

The boy, a noble looking little fellow of about ten years, started up, and throwing his arms about his mother's neck, left the house without a word. He did not hear the groan of anguish that was uttered by his parent as the door closed behind him; and it was well that he did not, for his little heart was ready to break without it. It was a by-street in Philadelphia, and as he walked to and fro on the sidewalk, he looked first at one person and then at another, as they passed him, but no one seemed to look kindly on him, and the longer he waited, the faster his courage dwindled away, and the more difficult it became to beg. The tears were running fast down his cheeks, but nobody noticed

It is highly gratifying to know that the vast agricultural and manufacturing resources of Maine, are every day becoming better known and developed. We hear from all parts of the State, and particularly from the northern and north eastern portions of it, of the great advancement of agriculture—of successful crops, of new settlements, of increasing comfort and independence among farmers, of improvements in stock, and of the good markets that are found for all surplus productions. New modes of culture, new sources for obtaining manure and better methods of securing, improving and applying it, are constantly opening before the intelligent cultivators of our soil, and a marked appearance of thrift is every where visible. What has been accomplished, however, is but a prelude to the full development of the agricultural resources of our State. A long line of successful progress lies before us. Our broad and wide spread State is in its agricultural and manufacturing resources as yet, with all that has been done, but a giant in its infancy. Every year is battering down both ignorance of, and prejudice against, Maine as an agricultural State. Every annual cattle show furnishes a new fact and a new proof of what we may do and are fast doing as an agricultural people. We have more good land, capable of easy and successful tillage in Maine than can be found in all the remaining States of New England. This vast territory is gradually being subdued from its natural state, and made to yield to the comfort and support of man, as it amply remunerates for well applied industry. Nearly all the productions and fruits common to the other New England States, are found, by experiment, to succeed well here.

The lumbering business in its various branches, ship building, lime burning, and various manufactures, for the successful prosecution of which there are ample materials and opportunities, afford good markets to the farmer at his very doors.

The price of land is low, good land well situated for farms, varying from one to five dollars an acre.

Then, too, we have a climate securing general health to all.

Great and unjust efforts have in years gone by been made to prejudice the public mind against Maine as an agricultural State. The legislation of the State has for the most part done but little to encourage either farming or manufactures. But the energy of the people, encouraged by the rich natural resources of the state, have pushed forward their enterprises until a general conviction of the advantages of the state is fast settling upon the public mind. A new impulse has been given to settlement—to agricultural and mechanical pursuits.

What we now need is to have the Geological survey of the State completed—to have a thorough agricultural survey—to have legislation wisely and prudently directed to the encouragement of the introduction of capital into the State for the purpose of increasing our manufactures and bringing into activity our now buried natural wealth.

Strangers who come into the State and become acquainted with our resources often express themselves surprised and delighted at our prospects and the rich advantages that lie open to the intelligent mind and the diligent hand. Let us cherish our State and aid in its prosperity and progress and greatness.

Mr. Kendall in his Expositor calls upon the General Government to clear out the Western rivers, improve Lake and River harbors, protect the people from piracy on the Ocean and give them the World for a market? A pretty considerable of a tall job especially as the nations of the world have long since taken into their own hands the regulation of their commerce and the protection of their industry. The call therefore upon the General Government to give the people the World for a market is all twaddle and nonsense. We find the markets of the world under regulations in which we have no part in making and all we can do is to see that this country is not foolishly made a market for the world to come in and run down our people while each country in the world protects its citizens from our competition with them. If the world can be secured for a market to us then there will be no need of protection for our industry because, even handed, we can compete with the world, but until this can be done we must insist upon protection at home equivalent, at least to restrictions abroad.

Yet with this cry of Mr. Kendall thousands are deluded into the rush for free trade, as though free trade on our part would secure it throughout the world. This is an error—a fatal error to our industry when attempted in practice.

There would be a little more propriety, more common sense and more honesty, we must say, if Mr. Kendall, instead of shouting free trade and giving the world for a market, would state in what way our government can give the people what he demands—the world for a market. Let him point out the mode. Let him show its power so to do instead of wasting his breath in exciting hopes in his followers which cannot be realized.

The papers by the last mail were particularly barren of news.

**Mr. Burritt's second Lecture—This evening.**  
Mr. Burritt, the "learned blacksmith," will deliver a lecture this evening before the Mechanical Association at the Baptist Church.  
In accordance with a generally expressed wish the lecture will be open to the public, the price of admission being fixed at 12 1-2 cents. This will accommodate all our citizens, whether members of the Lyceum or Association or not, and the favorable impression has first made upon the minds of our people has caused a very general desire to hear him lecture before his brother mechanics. We hope there will be a full house.

There is a worthy and very useful society in Boston, for the diffusion of information among foreign emigrants. The society does not propose to do any thing to invite emigration, but, by means of its correspondence, and the circulation of information in the different countries of Europe, it aims to correct erroneous impressions respecting the prospects of emigrants to the United States, and to limit their number, in some degree, to such as may reasonably expect to improve their condition by the change. Nor is it any part of its plan to furnish pecuniary aid for the support of the emigrant when arrived, but to offer him advice and information, such as, it is confidently believed, will make the difference between speedy ruin and future usefulness and prosperity to numbers of those who are every season crowding to our shores, and who, on arriving, are exposed to the arts of designing persons, as well as uninformed respecting the means of turning their industry to good account, through their ignorance of the localities, habits, and resources of the country.

We think it would be well for this society to be made acquainted with the resources and facilities of settlement in Maine, as they are neither few nor small.

On Tuesday last in this city the funeral of Miss Ellen Walls whose parents live in Kilmarnock, but who died in this city, at her sister's house, on Sunday, was attended by a large concourse of people embracing nearly the entire Irish population. In the procession there were seventy-two carriages and two horses with riders. This was probably the largest funeral procession ever in this city. The Irish people here manifest much sympathy for each other in all seasons of affliction and generally attend the last sad offices to the dead.

Among the young women in Rochester, N. Y. there are in existence forty secret societies. The Freemasons, Odd Fellows and members of the secret societies, of which there are several in that city, feel rather blue. It is a little singular that in a region where a few years since there was so much opposition to secret societies, so many should have sprung up. It is some like certain former leaders of the Anti-Masonic party in this city voting at the late election for a high inason as a candidate for Congress on the "Liberty Party" ticket.

It will be seen by referring to our advertising columns that Mr. W. J. Davis is prepared to post books, collect bills or attend to similar business, for which he is well qualified. Those who find their accounts behind and their bills uncollected for want of time to attend to them, will find a valuable assistant in Mr. Davis. He is also agent for a lock manufacturing company and would be glad to receive orders from those in want of a durable, beautiful and cheap article of the lock kind.

We have received another number of W. L. Mackenzie's New York Examiner. It is an independent, queer, and interesting sheet. Mackenzie is no imitator, not even in the mechanical appearance of his paper. He goes on his own hook, and his racy style may find imitators. He is dead ahead against Van Buren for the Presidency.

There is a Thomsonian Medical College established at Forsyth Georgia, with seven Professors, apparatus and all the necessary appliances for a thorough and systematic course of instruction. This will form quite a new era in medicine in the South. We notice that I. M. Comings a native of this city is Professor of Botany and Demonstrator of Anatomy.

We learn that one of the speakers at the "Liberty" caucus last evening was particularly and personally abusive towards the Whig candidate for representative. Such kind of gross and wholesale abuse generally defeats the object it is put forth to subserve, and we hope it may quicken the Whigs of the city to active duty.

We learn that as Mr. W. C. Bruce was descending one of the hills in this city on Wednesday, with a pair of fine horses, the poll strap broke and the carriage wheel ran upon and broke off one of the horses hind hoofs.

**Pennsylvania.**  
The Loco candidates for Canal Commissioners are elected. The Senate will stand 11 Whigs and 22 Locos; and the Assembly as far as heard from, 38 Whigs and 52 Locos. Nothing further from Congressmen.

**Ohio—Hail!**  
Farther returns from Ohio continue favorable for the whigs. Both branches of the Legislature are whig.

Those subscribers to the Whig & Courier who intend paying their subscription in potatoes and produce, are reminded that this is the time of year we expect them to call.

Several Ransellers in Belfast have recently abandoned the traffic, determined if they cannot live without selling rum they will starve.

The strong northerly wind yesterday caused a great shower of leaves to fall. The regimen of the flowers is grave and mournful.

**A sign.**  
At a Whig meeting in Hingham last week, several persons who had heretofore acted with the liberty party, addressed the meeting and gave their reasons for no longer remaining with that party. They said they should vote the Whig ticket entire. They are not the only ones in the same fix.—Lowell Courier.

The people in Ohio are anticipating much pleasure from a visit of the venerable John Quincy Adams, in November next.

The sportsmen of our city are having a fine season for game and are supplying the Boston market with various kinds of wild meat.

**An Iron Vessel.**  
The Courier gives the following account of an iron vessel, which Mr. Dunham of New York is building for the Revenue Service:

The vessel is clinker built; length 140 feet, depth 10 1/2, width of beam 24 1/2, of 330 tons measurement, and to be fitted with Ericsson's propellers of about 34 feet in length. She is now in a very favorable condition for exhibiting the mode of construction, and the strength and character of the work. Her ribs are of wrought iron 4 1/2 inches by 3, placed at a distance from 15 to 21 inches apart; the sheet iron, which is attached to the out side of these ribs and forms the shell of the vessel, is 5/16ths of an inch thick, the end joints of which was about flush, and are connected by a lap piece passing over the joint on the inside 4 1/2 inches wide and 3/4ths thick; the seams overlap 2 inches; the rivets are 3/4 of an inch in diameter, and are hammered firmly to their places while in a heated state, there portable forges for that purpose. The sheeting is punched and the holes counter, sunk with the greatest exactness by a machine. The shell is fastened to the ribs by iron knees firmly bolted to both. The whole arrangement present the appearance of great strength, and is calculated to produce the fullest confidence in the security of this character of vessels. The model of the vessels to our eye is not only perfect but beautiful. Ships of iron have many advantages over those of wood, and we look with interest to these first efforts at their introduction into our Navy, but with the fullest confidence in the result.

From the Buffalo Gazette of Tuesday.

**Departure of Missionaries for Iowa.**  
Rev. Messrs. Ephraim Adams of New Ipswich, N. H., Harvey Adams, Worcester, Vt., Ebenezer Alden, Randolph, Mass., Horace Hutchinson, Sutton, Mass., Dan'l Lane, Freeport, Me., Alden B. Robbins, Salem, Mass., William Salter, New York city, Benjamin A. Spaulding, Bedford, Ms., and Edwin B. Turner, Monticello, Ill., met in this city, on Saturday last, by agreement, on their way to the territory of Iowa, and remained over Sabbath. The most of them attended divine service at the first Presbyterian church, where, opportunely, they were permitted to partake of the Communion before their departure for the west. In the evening of that day, by appointment, these gentlemen attended a general meeting in the First Church, at which Messrs. Salter, Robbins, B. Adams, Hutchinson and Lane spoke to a large audience in the most interesting manner, in regard to the enterprise upon which they had entered. It appears that some time in February last, two or three young men in Andover Theological Seminary, in casting about for the field of their future labors as Clergymen, hit upon a plan of going to Iowa, and laboring there.

They communicated this plan to others, who joined them; and finally to the American Home Missionary Society, where it was favorably received, and these young men with two others, Rev. Messrs. James J. Hill, of Phillipsburg, Me., and William B. Hammond of Fair Haven, Mass., (who are detained by sickness,) eleven in all, made arrangements with that society to go to Iowa, and devote themselves as missionaries to that young and rapidly growing territory. We are glad to see Protestant New England alive to the necessity of scattering religious and scientific light and knowledge in the Valley of the Mississippi. For, in the forcible language of Professor Post, of Jacksonville, Ill., who also attended & addressed the meeting above named, "A plea for the West is a plea for the east. If the west sins the east will sin with her. If the west falls, she will drag down the east with her. The chain of lakes on the north, and the Mississippi and her arms on the west, whose navigable waters would in a straight line, surround the globe, bind the east and the west so indissolubly together that the fate of the one must be the fate of the other."

These missionaries, together with Professor Post, and four other missionaries, bound to Michigan and Wisconsin, who providentially met the Iowa band here, left last evening in the Missouri, for their several destinations. May they have a safe and pleasant passage, and be successful in their undertaking. We cannot refrain from stating that we have seldom seen so many men banded together in an enterprise, who seemed to possess such sterling good sense, and humble, quiet characters, coupled with firmness and decision, as did these young men.

**Noble Liberty.**  
We learn from the Indiana Statesman, that Miss Anna Maclure of New Harmony, (sister of the late William Maclure, who was well known to the scientific world,) has presented to Dr. David Dale Owen, for the purpose of a Laboratory, Lecture Room, Museum and Geological Cabinet, one of the largest and most permanent buildings in this State. It is chiefly of massive stone, seventy-one feet by fifty one, and five stories high. It was built by the Germans who first settled in that place, and was originally intended by them, so tradition says, as a fortress against the attack of hostile invaders, red or white. Miss Maclure appears to have inherited her deceased brother's liberality in the promotion of science; especially his favorite science, geology; and a worthy recipient of her bounty than the learned and amiable Doctor Owen could not have been found. He is about to fit up this building in a complete and appropriate manner; on the lower floor, his turnace, workshop, &c. and above, a lecture room, depot for philosophical and chemical apparatus, with a gallery extending entirely around the building, in which is to be arranged shelving to receive geological and mineralogical specimens. His cabinet of the latter is probably the largest and best in the United States; of Western specimens no doubt the most complete in the world. [Indiana State Journal.]

**Ontanagon Mass of Native Copper.**  
At a stated meeting of the National Institute, held on Monday evening last, the Hon. Mr. Porter, Secretary of War, and one of the Directors of the Institute, being in the Chair, reported verbally to the meeting that he was pleased to be able to say that the celebrated mass of native copper of the Ontanagon, heretofore noticed in this paper, was probably now on its way to Washington for the National Institute. A letter from General Cunningham agent for the mineral lands in Wisconsin and on Lake Superior, of the 28th of August, had informed the Department that it had been removed from its location on the Ontanagon river and was then on the shore of Lake Superior. It had been removed from its bed by means of a temporary railway to the Ontanagon, below the falls, and thence transported on a scow to the Lake. This removal was effected by Mr. Eldred, who claimed the copper under an alleged purchase of the Indians, with the aid of a large number of men, who had either engaged or volunteered for the purpose of aiding in its transportation. The Department did not recognize the purchase from the Indians if such had been made, and had directed the agent to take possession of it on behalf of the Government, and transport it to Fort Brady, at the Sault de St. Marie, whence the Secretary of the Treasury had directed a revenue cutter to transport it to Buffalo, at which place the Quartermaster's Department would take charge and transport it to this place. The weight of the mass, Mr. Porter stated, was probably from 6000 to 7000 pounds. The Agent had been directed to make to those who had transported it to the Lake an ample compensation for their labor and expense in so doing, although their right to the mass of copper itself was altogether denied, as it belonged to the Government of the United States. Any claim to the ownership must be established to the satisfaction of Congress before it would be recognized by the Department.—National Intelligencer.

**Heathen Bell-Founding.**  
The Indian papers contain a curious account of the casting of an enormous bell at Rangboon, as an offering from the King to the great temple of Shwey Dagon, in that city. It is stated that 8,000 men were employed at the 500 forges or wind pipes, put in requisition on this occasion, that is 16 persons to a pump or forge. Dressed in their gayest attire, all the principal officers of the town, and chief men of the surrounding villages, having made their supplications, commenced operations at four forges constructed for their appropriate use, and then followed the active movements of the five hundred plebeian forges. A hundred and seventy viases of silver, nearly 617 lbs. and one hundred and fifty of gold, nearly five hundred and forty-eight lbs., were added by the people to the metals which had been provided by the King, besides a vast number of gold and silver ornaments, of which no account was taken. In four days and five nights the work was completed. The dimensions of the bell are said to be seven cubits in diameter, twenty-one in circumference, eleven in height, and one and two inches thick. The weight of the metal, which an account was taken, was five hundred tons. It was ordered that the bell should rest in its mould for forty days, during which period neither the sound of cannon, musket, nor even that of a rice mortar should be heard in Rangboon, lest the concussion of the atmosphere should crack the mighty mass. [English paper.]

**MARRIED.**  
In Belmont, Samuel P. Goodwin, to Mary Derigan. In Moore's Fork to Harvey Samblom. In Bath, Wm. Glynd to Sarah Williams; also John H. Oliver to Sarah K. Cluskey. In New York, Oct. 8th, Hon. John Anderson, of Wisconsin, to Miss Catherine M. Sumners, of that City.

duced rates.  
May 19 1843

**SANDS' SARSAPARILLA.**  
FOR THE REMOVAL AND PERMANENT  
CURE OF ALL DISEASES ARISING  
FROM AN IMPURE STATE OF  
THE BLOOD, OR HABIT  
OF THE SYSTEM,  
NAMESLY:  
Scrofula, or King's Evil, rheumatism,  
obstinate cutaneous eruptions, pim-  
ples, or pustules on the face, blotches,  
bites, chronic sore eyes, ring worm  
or tetter, scald head, enlargement  
and pain of the bones and joints, stub-  
born ulcers, syphilitic symptoms,  
scrofula, or lumbago, and diseases  
arising from an injudicious use of the  
mercury, ascites, or dropsy, exposure  
or impudence in life. Also,  
chronic constitutional disorders will  
be removed by this preparation.

The proprietors submit to the public the following  
certificate, from a highly respectable source, of  
a cure made by using their preparation of Sarsaparilla,  
which cannot but have the effect of placing  
beyond all doubt the curative powers of the medi-  
cine.  
NEW YORK, August 3, 1842.  
"Messrs. Sands—Gentlemen—Under a feeling  
sense of gratitude inherent to us all when suddenly  
relieved from suffering and disease, I now as an act  
of justice due to you, and with a view of relieving  
the afflicted, make known to the world the inesti-  
mable benefit I have received from the use of your  
Sarsaparilla. In the year 1832 I failed from Eng-  
land in a vessel bound for Quebec, and while on the  
passage first discovered the disease which after-  
wards proved to be a sore affliction, and truly I can say,  
"from the crown of my head to the sole of my foot  
there was no soundness in me." From the time first  
mentioned down until the present, a period of more  
than ten years, I have suffered all that human na-  
ture was capable of bearing. I have been under the  
care of the most distinguished physicians both  
in this country and in England, visited Bath, Chel-  
tenham, Bristol and Gloucester, tried various spe-  
cifics, among others a large quantity of Sarsaparilla,  
Panacea, used sulphur baths, &c. As a last resort  
I was induced to wrap myself in a tar ointment,  
keep myself secluded, shunned by all, myself also  
shunning. I was induced to believe my case a  
hopeless one.

In August last, by the advice of friends, I went  
to the New York City Hospital, but was there told  
that my case was incurable. The disease now en-  
veloped my whole body, rendering me almost help-  
less; the skin thickened and cracked, and blood and  
matter ran, and life itself became almost a burden.  
A few weeks since I was induced to use your Sarsaparilla  
by hearing it so highly recommended, having  
spent nearly \$3000 without obtaining but little  
relief. After using it a short time, I found myself  
better, and now, by using six or eight bottles, cost-  
ing me less than ten dollars, I am well. Yes, I cer-  
tify and declare to the world, that after spending  
near \$3000 in traveling and doctoring, and suffering  
more than can be told, I was perfectly cured  
by using your invaluable preparation of Sarsaparilla,  
and I now recommend it to all similarly afflicted  
Those wishing to know further particulars will find  
me at my residence, No. 27 Warren street, New  
York, where I shall be happy to communicate any  
thing in relation to the above cure.

Prepared and sold by A. B. SANDS & Co. Drug-  
gists and Chemists, Granite Buildings, 273 Broad-  
way, corner of Chambers street, New York. And  
for sale by Druggists throughout the United States.  
Price \$1 per bottle, six bottles for \$5.  
The public are respectfully requested to remem-  
ber that it is Sands' Sarsaparilla that has and is  
constantly achieving such remarkable cures of the  
most difficult class of diseases to which the human  
frame is subject, and ask for Sands' Sarsaparilla,  
and take no other.

G. W. LADD, Agent for this vicinity, and deal-  
ers will be supplied very low by the dozen.  
June 20—3tawd wewly

**WEST INDIA GOODS, GROCERIES

der particulars, enquire of J. Washburn Jr. For or-  
der, or of the subscribers, Boston.  
A. M. & W. P. EASTMAN.  
Sept 30. w3w

**HIGHLY ESTEEMED MEDICINES.**  
**FOSTER'S EGYPTIAN BALM OF  
LIFE.**  
OR NATURE'S GRAND VEGANIC AUXILIARY  
A Ointment for Consumption, Great Bodily Debility,  
Old and firmly Rooted Coughs, Flatulency, Indol-  
gence and Bilious Disorders, Colic, Dropsy and Diarrhoea,  
Scrofula and Scrofulous Affections and Female Com-  
plaints.  
The Egyptian Balm of Life being an invaluable Family  
Medicine, should not be neglected in the Spring and  
Fall by any member of a family, as a Grand Auxiliary  
to the efforts of nature, in throwing off noxious hu-  
mors, generated in the winter and summer months, thus  
preventing as well as otherwise curing the above dis-  
eases, and giving a healthy tone and propen-  
sity to all the great operations of the system.  
This Medicine has long sustained an unrivaled char-  
acter for excellence in the private practice of medi-  
cine, and for its efficacy in the treatment of the individ-  
ual who has been long afflicted with any of the above  
diseases, as well as its influence on those who are  
laboring under any of the diseases for which it is de-  
signed as a specific, and also as a preventive of disease  
in its first appearance.  
For a more full and detailed description of the above, and  
the various diseases to which it is applicable, see the  
bottle.  
A very valuable certificate might be produced if it  
were not for the fact that it is so well known in the  
State of Maine, as well as in other States, can testify to its  
superior efficacy, but the proprietor is willing for the  
public to judge for themselves by trial. A few names how-  
ever, referred to in the envelope accompanying our  
bottle.  
Foster's Celebrated Nerve Ointment,  
For the cure of Sprains, Bruises, Cramps, Rheuma-  
tism, Contracted Muscles, Sore Throat, stiff Neck,  
Pain in the Breast, Back or Joints, Throat Distemper,  
the whooping Cough, &c.  
The general testimony concerning this Ointment, from  
those who have proved its merits, is, that it is too valu-  
able a medicine to be neglected. And indeed we might  
fill a book of an hundred pages in giving incidents of its  
happy effects on the suffering.  
N. B. The above Medicine is prepared only by  
A. Greenough, Portsmouth, N. H., and sold wholesale  
and retail by him.  
Also, said wholesaler and retail by G. W. LADD, Ban-  
gor; sold also by Eld C. Rigby & J. Knowlton, New  
Burg, Winthrop, Portland, Lincoln, S. Lane, Palmyra, H.  
G. O. Washburn & Co. Belfast; Gilmore & Clifford,  
Prospect; Luther Mudge, North Prospect; Robert  
Frost and J. B. Clark, Frankfort; Arty & Nourse,  
Hamden; Richardson & Kennedy, Old Town; E. P.  
Buller & Co. Orono.  
October 25. 40tawd wewly

**FOSTER'S CELESTIAL BALM  
OF CHINA.**  
Statements honest, plain and true. Will  
you believe and profit by them, or ne-  
glect and suffer.  
THIS Balm or Salve will be found unlike any  
other preparation. There is no Fiction or Im-  
agination in its qualities. It will cure any sore that  
can be cured at all. It will take out inflammation,  
and take down swellings; and by thorough friction  
over the parts externally, will by counter irritation,  
enforce inward soreness to the surface.  
A YOUNG WOMAN, for years afflicted with  
a running sore, called a fever sore, cured by the use  
of this Balm in about three weeks.  
A CHILD, with great hoarseness and difficult  
breathing, relieved and cured by rubbing it well on  
the chest and stomach, and covering a flannel with  
the Balm and laying it over the breast.  
A JUDGE of one of our courts had piles several  
months without knowing the name of his complaint;  
he used one flask of this Balm and was cured.  
A GENTLEMAN who had an attack of piles  
every year regularly for ten years, cured himself  
five years since by this Balm, and though plai-  
ly threatened at least fifty times since, has kept off an  
attack by rubbing on the Balm when any uneasiness,  
soreness, or fullness is felt about the parts.  
A PRISONER cut a frightful gash in his foot  
with a piece of broken glass; he was cured in a few  
days by the Balm. The same bottle cured all the  
sore fingers, legs and feet in the prison.  
AT THE ASYLUM for Aged and Indigent Fe-  
males, it has been used with signal success. One  
of the lady patronesses, Mrs. Nixon, has left her  
name, and wished sufferers referred to these facts.  
NO MAN OR WOMAN can possibly have the  
PILES if they use this Balm well when they feel  
any uneasiness about the parts. It is far better to  
prevent than cure any calamity or ailment.  
DIRECTIONS, &c., FOR ITS USE.  
FOR THE PILES—If the parts are very sore,  
reduce a little of the Balm by mixing half lard with  
it. Alter one or two trials that way, you must use  
it without reducing it. You need not use too much  
at a time—if a whole bottle could be absorbed in  
two applications, by long friction, it would be all the  
better.  
IF COSTIVE, use it well before going to stool  
—this will do wonders.  
TO PREVENT any attack of the Piles, you  
must use it whenever you feel a fullness of the parts,  
and an attack will be impossible. Hundreds thus  
keep off this dreadful complaint entirely.

**INTERNAL PILES**  
May be reached by injecting it with a syringe,  
with a large open point to it. This syringe, made  
expressly for injecting this, and the Dalley's salve,  
or Hays' liniment, may be found with those who  
sell these articles. See drawing. Or in some cases  
may be reached with the finger, or covered  
with a piece of silk smeared with the Liniment.  
**PROJEETING PILES.**  
That won't return at all, may be reduced by  
white lead, ground in oil, and put on over-night, say  
a spoonful from a pint jar.  
**VERY COLD WATER** should be applied by  
washing the parts well after stools, particularly if  
just before bed-time.  
In very old cases of Piles, when there is apparent  
inflammation and discharge from the parts, or when  
the parts are very sore or inflamed, use "DAL-  
LEY'S PAIN EXTRACTOR" alternately with the  
"CELESTIAL BALM," and your cure is  
certain. Use the syringe.  
**Hoarseness, etc.**  
IN DIFFICULT BREATHING—Spread it  
on linen or flannel, and lay it on the breast, after  
having rubbed the breast well with it—the relief  
will be felt directly. So with Coughs, and  
especially with Hoarseness, or Sore Throat—rub all the  
skin becomes tender, then spread it on flannel, and  
bind it on, and you may depend it will cure you. If  
you do not believe it now, you will when you have  
once tried it.

**Rheumatism.**  
RHEUMATISM, and all pain in the joints, and  
stiffness, must be cured by it by rubbing the parts  
until the skin becomes tender, and then binding  
more on well with flannel.  
Address COMSTOCK & CO., Wholesale Drug-  
gists, 71 Maiden Lane, New York.  
For sale by G. W. LADD, corner of Smith's  
Block, A. P. GUILD, Exchange street, G. W.  
HOLDEN, West Market Place, and N. B. FOL-  
SOM, Jr. Bangor

**OILED CLOTHING.**  
**SUPPORT HOME MANUFACTURES!**  
**MASON H. WILDER,**  
69 Broad Street, Bangor,  
MANUFACTURER and Dealer in Oiled Cloth-  
ing, Tarpaulin Hats, Glazed Caps, India Rubber  
Aprons for Lumblers, &c. Dealers in want  
of these articles, will find it to their advantage to  
call, as he sells cheaper than can be bought in Bos-  
ton or elsewhere, and as good as the best, as the  
rapid sale of the article proves; notwithstanding  
the efforts of some of those who have Western  
clothing to sell, to make people believe that a gar-  
ment oiled in the State of Maine, cannot by any  
possibility whatever, keep out the water.  
Clothes re-oiled at short notice. India Rubber  
cloth prepared for carriages and knapsacks.  
He will also attend to the business of HARKING  
PAPER neatly and promptly.  
Bangor, June 30, 1843.

**THE TIME  
HAS COME!**  
THE Time has come when Consumption may be  
classified with the curable diseases.  
The Subscriber announces the gratifying intelli-  
gence that he is constantly receiving from England  
large supplies of  
**Bucan's Hungarian Balm of  
LIFE!**  
The ONLY compound known to the Medical Faculty  
which will effect a speedy and permanent cure of  
that dreadful malady.  
**CONSUMPTION!**  
**AND ALL DISEASES OF THE PULMO-  
NARY ORGANS.**  
For the last six years the Hungarian Balm  
has been in extensive use in Great Britain, and  
throughout the Continent of Europe, where it has  
completely astounded the Medical Faculty by its  
unparalleled success in the cure of the most  
**HOPELESS CASES**  
of Consumption ever brought under their notice—  
In England it has cured thousands upon thousands;  
of all classes, in cases of the most dangerously  
Consumptive character; and the English papers are  
full of extravagant eulogiums upon it, and upon its  
distinguished authors.  
This Balm has also been introduced into the  
practice of some of the best Hospitals, Infirmaryes  
and other Institutions in Great Britain, and has re-  
ceived the public sanction of the most distinguish-  
ed Chemists and Professional men, as the  
**MOST WONDERFUL CURATIVE**  
of Pulmonary Diseases in the whole range of Phar-  
macy.  
A Committee of seven of the most celebrated  
Physicians of London, who were requested by  
Dr. Bucan to give their unbiased opinions of his  
Balm, have, under their own names, unreservedly  
pronounced it an  
**UNRIVALED SPECIFIC.**  
And they unhesitatingly recommend it to be kept  
in every family of a CONSUMPTIVE TENDEN-  
CY. The joint certificate of these Physicians  
accompanies each bottle of the Balm.  
Dr. Bucan has been elected an honorary mem-  
ber of the prominent Medical Societies of Europe,  
and his Balm is now so well established that lib-  
eral minded men, in the Medical profession, prescribe  
it for their patients, as the  
**BEST OF ALL REMEDIES**  
for Pulmonary complaints and physical debility—  
and it is universally received as one of the standard  
medicines of the day.  
The great merit of Dr. Bucan's Balm is this  
in all cases of Pulmonary complaints it gives  
**IMMEDIATE RELIEF.**  
A single bottle will reveal its astonishing virtues;  
and open at once the fountain of health and strength  
to the afflicted.  
Price of the Balm, only \$1 per bottle, with  
full Directions, Dissertation on Consumption; No-  
tices and Certificates of Remarkable Cures, &c.

fects in this city.  
It seldom, if ever having failed to perform a most  
satisfactory cure of the various loathsome diseases  
for which it is designed—where the directions  
accompanying each bottle have been faithfully fol-  
lowed.  
Don't fail or delay in calling, seeing, reading  
and enquiring for yourselves. You will be induced  
to try it, and thereby find the same wonderful ef-  
fects as multitudes of others.  
For sale in Bangor, only by G. W. LADD,  
a 15 3tawd 45tawly Corner Smith's Block.

**CURE FOR DEAFNESS.**  
**SCARPA'S ACOUSTIC OIL**  
FOR the cure of deafness, pains in the ears, and  
also for those disagreeable noises, like the buz-  
zing of insects, and so forth, which are symptoms  
of approaching deafness. This really valuable article  
is for sale in Bangor by A. P. GUILD,  
may 25—w Druggist, Exchange-st.
